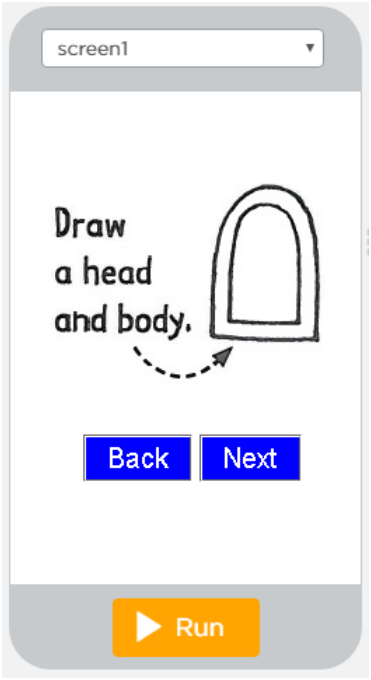
How to Draw a Penguin (Screens!)

Media required: All seven penguin pictures.

penguin1.jpg 	penguin2.jpg 	penguin3.jpg 	penguin4.jpg
penguin5.jpg 	penguin6.jpg 	penguin7.jpg	

Create an App that looks like this. You will need 7 screens.



- The back and next buttons should be on each screen and they should lead to the previous and subsequent screens (depending of course on the button).
- Make sure that if you go forward when it is at picture 7, that it goes to picture 1.
- Also, make sure that if you go backward when it is at picture 1, that is goes to picture 7.
