

# B1 Fortune Cookie

Make the following user interface:

When the find fortune button is pressed:

- The picture switches to cookieOpen.jpg
- A random number between 1 and 10 is picked.
- Based on the random number, a message appears on the screen.

When the new cookie button is pressed:

- The picture switches to cookieClosed.jpg
- The message becomes "Click to find out your fortune."

Any resemblance this assignment has to Magic 8 Ball is purely coincidental. Feel free to look there for help.
